DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance:

Prior arts of record do not disclose a network management apparatus comprising a message passing operator operable to receive a token for connection request having destination information specifying contents of communication including a desired function, information of an object, or information of a problem domain relating to the function; a token processor operable to detect a route having the possibility of existence of the destination for connection on the basis of the destination information of the received token; and a token generator operable to output the other destination information which is useful for selecting one route having the possibility of connection among the detected routes to the token processor when a plurality of routes are detected, co-operate with the token processor to select the one route by constructing hypothetically a path for connection and output a token for connection request to the selected route.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
